

Where A.I. does help SCF

- AI solves problematic linked to anticipation
- SCRM (supply chain risk management)
- PO/invoice filtering and pre-approval
- Delivery delays and incidents
- Payments data

➤ Need for buyer irrevocable agreement

➤ But is one bank really having big data?

Where A.I. does not help SCF

- Major issues of SCF: linkage
- Linkage of the SCF actors/stakeholders
- Reconciliation of transaction data
- Ownership and reposs. of good in transit
- Only so much technology can bring

➤ Stakeholders' will only is key to SCF development
